Appendix 1

Biographical Register of General Church Officers

This register contains basic biographical information on all persons sustained as General Church Officers in the general Church conferences since the Church was organized on April 6, 1830. The entries are listed alphabetically for ease of reference. For a list of general officers of the Church in the chronology of their being called see Appendix 5, General Church Officers, A Chronology.

Where the information is available, the entry includes general Church calling(s) and date(s); birth and death dates and places; family information such as spouse and number of children; vocation at time of calling; former Church service positions (stake, mission, or temple president, regional representative, or general board office). Although the names of some of the auxiliary organizations have changed through the years, references use only the current names. Because public records for many plural marriages do not exist, it was decided to list only that the man practiced plural marriage when that is known rather than give partial or incomplete marriage information.
